That Guy by Kirk Williamson

As Sal-E prepares to ship off after what seems like the 4 million years we've known and loved her in Chicago, Smart Bar's **Queen!** threw a lovely going away getdown. I was not able to attend, but thanks to the meticulous photography of one Mr. Roger Cummings, you can take a look back at the many moods of Sal-E from her appearances as host of the Sunday night staple. See you, Sal. Chicago just got slightly less fabtastic.

You know, "fabtastic" was a typo, but as I went to correct it, it struck me as perfect. Just a little off-center. Just a little Sal-E.

Jerry Nunn caught up with the 8 trillion (yes, I'm on a hyperbole kick) of you at the Robyn show at Millennium Park's Pritzker Pavilion. I was out at the bars during the show. Nobody was there with me. The Scandinavian wave swallowed you all, apparently.

Another fond farewell goes to Mark Ortega, whose farewell show at **@mosphere** I characteristically JUUUUST missed. No lie. As I rounded the corner of Clark and Balmoral, I heard "Thanks, good night" coming from the open window. It's okay, I'm familiar with the amazing talents of Mark, as well as guest performers Michael McBride and James Gavin. We sat around for a while afterwards and talked Gay Idol and shit. Somehow the conversation turned to regularity (ya know, of the colon) and I predicted that when Beyoncé turns 40, she'll release a track entitled "I Woke Up This Regular." Just you wait and see!

No photos from the wedding of Johnny and Jason, owners of **Club Krave**, as I was just there to share the love. And oh, what love there was! Each of them had eight groomsmen, a number of which from their reliable stable of Club Krave queens, so it was a bit odd to see them all in tuxes. But you could still see the queen in 'em. Especially Serina :)

Stay tuned for photos from **Miss Continental** in the next issue. Whose glamour will reign supreme?!

And on a personal note, RIP Iggy Williamson, June 25, 2003 - August 23, 2014. Who will lick my beard now? :(

A TIP FROM A
FORMER SMOKER

HIV alone didn't cause the clogged artery in my neck. Smoking with HIV did.

Brian, age 45, California

Brian had his HIV under control with medication. But smoking with HIV caused him to have serious health problems, including a stroke, a blood clot in his lungs and surgery on an artery in his neck. Smoking makes living with HIV much worse. You can quit.

DANCING ABOUT ARCHITECTURE

by Marc "Moose" Moder

IT WAS TWENTY YEARS AGO TODAY...

Much has been made this year of two landmark anniversaries. Firstly, 1964 and the aftermath of the assassination of JFK and the eruption of Beatlemania changed our world in such profound ways, we're still feeling it today. Secondly, 1984, which as this columnist waxed upon in this magazine, launched the stratospheric stardom of Prince, Madonna, Cyndi Lauper and The Boss, to name just a handful. But let's not overlook a year that doesn't seem too far off to those of us of a certain age: **1994**.

Grunge had already broken big—too big—and was about to bust. 1994 marked a death to Generation X what Buddy Holly and Richie Valenz's passing was to the baby boomer generation: **Kurt Cobain**. Cobain, who'd battled illness and drug problems in his short adult life, took his own life in the summer of this year, while his peers **Blind Melon** and **The Breeders** faced the music with public drug embarrassments. Also, **Pearl Jam**, now a stadium band, (referred to by the band Love Jones that year as "Pearl Jam, the Kansas of the '90s") were large enough to battle Ticketmaster, which totally worked. As grunge faltered, punk and Britpop hit big with debuts by **Green Day**, **Weezer**, **Blur** and **Oasis**, all of which still sounds fresh to this day.

1994 marked the reunions of **The Eagles** and **Jimmy Page & Robert Plant** for live events, and the three remaining Beatles' recording of new songs for their huge Anthology series (using John Lennon demos). It also saw the closing of the end of **Pink Floyd** as they toured on behalf of their final (to this day) album, The Division Bell.

In future news, two huge acts to perish in the following years had infamous milestones: **Lisa "Left Eye" Lopez** of TLC burned down her boyfriend's Mansion while **2Pac** went to jail for attacking a video director. Also, both **Aaliyah** and **Jeff Buckley** released their debut LPs this year, with only two more for her and zero for him before their untimely deaths a few years later. On more positive notes to the future, influential bands like **The Fugees**, **Maroon 5**, **Placebo**, **Wilco** and **Sigur Ros** formed to form the end of one century and the beginning of the next, and sadly so did **Creed**, **Incubus**, **Smash Mouth** and **The Spice Girls**.

Confessions of a Nunn

by Jerry Nunn

JUDGING A PORN BY ITS COVER

Jerry Nunn: It's back to school this week and we are studying Bi-ology.
Diablo: Now that Labor Day is over, it's all work and no play.
JN: This flick is from 1993.
D: Chi Chi LaRue took over Catalina years ago.

Bi-ology

by Catalina Video
Starring Cody Foster and Bo Summers

Scientist Dean Glass studies a naked specimen sleeping with electrodes on his body, and when a conniving scientist played by Lois Ayres takes over, the patient shows signs of bisexuality.

JN: The scientists are making a house call.
D: Are they really debating nature versus nurture in a porn film?
JN: The lady scientist is pumping lesbian porn into his brain.
D: Maybe it's doing to him what it does to me: nothing!
JN: Her licking the girl that looks like singer Natalia Kills with a tongue ring is getting tiresome.
D: She has a feather duster on her head!
JN: Scientist Lois is shedding her uniform.
D: Do you see the tan line on her boob?
JN: I think the treatment is working. Cody is attracted to women now.
D: Thank God Dean arrived to turn him back gay with the machine.
JN: I think these video montages are trying to be artsy.
D: It's very distracting.
JN: Lois keeps changing the controls of the machine.
D: They are creating a monster!
JN: Frankenstein bisexual style.
D: Is that a pearl necklace she's wearing?
JN: Yes, along with heels and a black bikini.
D: Who did the wardrobe for this movie?
JN: Oh no she didn't just wrap her pearl necklace around his penis before sucking it.
D: Now the dude is wrapping his dog chain necklace before he blows him.
JN: I think it's symbolic.
D: They could just be into decorating things.
JN: Another girl appears magically out of nowhere to make a foursome.
D: The patient is overloading and suffering convulsions.
JN: Lois is supposed to be holding his legs down but instead starts sucking him off.
D: Wow, that's an electric hot pink shirt under Dean's lab coat.
JN: Real men wear pink.
D: These scientists really get along well with each other.
JN: Banging each other crosses a line.
D: Call human resources. These scientists should lose their licenses.
JN: Most of the scenes use condoms but not this three-way.
D: This ends with a conclusion that environment and birth can effect a person's orientation.
JN: Hmm, very '90s.
D: I don't know if it's the leftover '80s furniture or the space-age music but this is not turning me on.
JN: There are no live grunts and groans, just a bad Casio keyboard beat until the last scene.
D: The video is so grainy.
JN: It must have been a shoestring budget.
D: At least they could afford that pearl necklace.
JN: They should have studied up more before releasing Bi-ology.
D: Go back to school, Catalina!

Nunn's Golden Rule:
Don't let scientists control your sexual urges.

Final Judgment:
Jerry Nunn: Crucifix down.
Diablo: Pitchfork down.
